Timber Creek Golf Club provides a challenging experience for Houston golf enthusiasts of all ability levels. Creekside, a short 9 holes, requires game management but doesn't emphasize length. The Pines is known to be a little more open. Its 9 holes are medium length and it does not have as many demanding carries. Timber Trails is everything a golfer would want in a 9-hole course for his/her golf game. Long in length, demanding carries, and ally-like fairways.

Notice: *If PBGN is charged for a player that cancels after final count is submitted that player must repay PBGN.*
